

My dear friends at Open Arms,

Thank you for sending me the pureed food today I will be getting all my teeth pulled today. I am writing to tell you how much I am thankful for the years you have helped me with my food. I have so much health needs now. We thought I had cancer in my lung but praise God it was not so. I want to thank all you for not only making my food but those that deliver it and come to see me. I am 84 years old from Louisville, KY. There are days I am so lonely. You are friends two times a month. Blessings to all of you. I want this donation to help new people that need your loving touch and food.

Blessings!
